

REMARKS

The Ex Parte Quayle Action of May 12, 2009, has been carefully reviewed.

It appears that the only problems remaining in the application are the title and the abstract, and both of these have been addressed above.

For the record, applicants do not agree with the objection to the abstract, because the abstract relates to the "disclosure", not to the claims. Nevertheless, as the abstract has no effect on the claims, applicants have amended the abstract consistent with what is stated in the Office Action. Applicants authorize the examiner to make further changes by Examiner's Amendment, if the examiner wishes to do so.

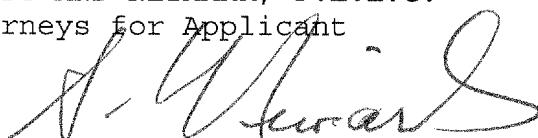

The claims have been allowed, whereby applicants understand that the claims meet all the requirements for patentability, and applicants are proceeding in reliance thereon.

Applicants now await the receipt of a Notice of Allowance.

Respectfully submitted,
